SUBJECT INDEX

Acetylcholine–receptor interactions,
Hydrogen bonding. Part 39. Hydrogen bonding by α-CH in quaternary ammonium salts and the possible role of CH–H···B hydrogen bonds in acetylcholine–receptor interactions, 47
Acetylisocyanate,
Conformation and structure of acetylisocyanate, $CH_3C(O)NCO$, from electron diffraction and microwave data and ab initio calculations, 359
Alkenyllactams,
Electronic structure and conformational properties of the amide linkage. Part 9. Geometrical and electronic structures of N-alkenyllactams as determined by PE spectroscopy and semiempirical quantum chemical calculations, 103
Alkyl chloroacetates,
Raman spectroscopy study of rational isomerism and molecular conformation of ethyl through hexadecyl chloroacetates, 75
Amide linkage,
Electronic structure and conformational properties of the amide linkage. Part 9. Geometrical and electronic structures of N-alkenyllactams as determined by PE spectroscopy and semiempirical quantum chemical calculations, 103
Aromatic sulfur compounds,
Electronic structures of some aromatic sulfur compounds, 119

Bis(betaine)-telluric acid complex,
Structure and IR spectra of the solid complex of bis(betaine)-telluric acid, 293
Bleomycin analysis,
A modified MM2 force field for bleomycin analysis, 385

$CH_2ClCOOH$,
Thermal and co-laser induced rotamerization of $CH_2ClCOOH$ in an argon matrix, 17

Charged complexes,
Nature of continuous absorption in IR spectra of charged compiexes with a symmetric hydrogen bond, 237
Chloropyridine,
Structural investigations of transition metal (II) tetracyanonickelate complexes of 3-chloropyridine using Fourier transform-infrared and laser Raman spectroscopy, 85
Cobalt–bleomycin,
A modified MM2 force field for bleomycin analysis, 385
$Co(medien)_n(dien)_{2-n}$,
A molecular mechanics analysis of $[Co(medien)_n(dien)_{2-n}]^{3+}\{n=0\text{–}2\}$ (dien = diethylenetriamine or 1,5-diamino-3-azapentane; medien = 3-methyl-1,5-diamino-3-azapentane), and X-ray structural studies of the *MER*- and *S-FAC*-$[CO(medien)(dien)]^{3+}$ cations, 189
$[Co(medien)(dien)]^{3+}$ cations,
A molecular mechanics analysis of $[Co(medien)_n(dien)_{2-n}]^{3+}\{n=0\text{–}2\}$ (dien = diethylenetriamine or 1,5-diamino-3-azapentane; medien = 3-methyl-1,5-diamino-3-azapentane), and X-ray structural studies of the *MER*- and *S-FAC*-$[Co(medien)(dien)]^{3+}$ cations, 189
Cyanoformyl fluoride,
The photoelectron spectrum of cyanoformyl fluoride, 133
Cyclohexatriacontane,
Phase transition in cyclohexatriacontane as studied by variable-temperature ^{13}C CP/MAS NMR spectroscopy, 153

D_2O,
Intermolecular resonance coupling of vibrations in the polarized Raman scattering, 1
Diaza-18-crown-6,
Vibrational spectra, force field and normal modes of 4,13-diaza-18-crown-6, 269
Dinitrobiphenyl,

Molecular structure of 4,4′-dinitrobiphenyl in the gaseous state, 329
Disubstituted naphthalenes,
A Kerr effect study of conformations of 1,8-disubstituted naphthalenes as solutes, 417

Five-membered heterocycles,
An empirical correlation between steric energy and C-13 chemical shielding, 225

H_2O,
Intermolecular resonance coupling of vibrations in the polarized Raman scattering, 1
Hydrogen bonding,
Hydrogen bonding. Part 39. Hydrogen bonding by α-CH in quaternary ammonium salts and the possible role of CH–H$\cdots$B hydrogen bonds in acetylcholine–receptor interactions, 47
Hydrogen bonding. Part 40. IR and thermodynamic study of stability and stoichiometry for triethylenediamine dioxide hydrates triethylenediamine monohydrate and mixed H_2O/H_2O_2 solvate of triethylenediamine dioxide, 59
Molecular mechanics calculations of systems with strong hydrogen bonds, 179

Intramolecular hydrogen bonds,
Regularities in formation of intramolecular hydrogen bonds with the metal atom. Part I. α-Metallocenylcarbinols of the iron subgroup, 367
Iron subgroup,
Regularities in formation of intramolecular hydrogen bonds with the metal atom. Part I. α-Metallocenylcarbinols of the iron subgroup, 367

Lupin alkaloids,
Lupin alkaliods. Part IV. The influence of some structural factors on the conformational equilibrium in bis-quinolizidine systems, 143

Metallocenylcarbinols,
Regularities in formation of intramolecular hydrogen bonds with the metal atom. Part I. α-Metallocenylcarbinols of the iron subgroup, 367
Methyl-4-trinitromethyl-1,2,3-triazol,
Electron diffraction analysis of the molecular structure of gaseous 2-methyl-4-trinitromethyl-1,2,3-triazol, HC=N–N(CH_3)–N=C–C(NO_2)$_3$, 337

Pentanedithionate palladium (II) complex,
Resonance Raman spectra of bis (2,4-pentanedithionate) palladium (II) complex, 9
Polycyclic aromatic hydrocarbons,
Conformations of condensed polycyclic aromatic hydrocarbons. Part III. The molecular and crystal structure of tribenzo[*a,h,rst*]phenanthra[1,2,10-*cde*]pentaphene: a simple analysis of the in-plane distortions due to overcrowding, 283

Quaternary ammonium salts,
Hydrogen bonding. Part 39. Hydrogen bonding by α-CH in quaternary ammonium salts and the possible role of CH–H$\cdots$B hydrogen bonds in acetylcholine–receptor interactions, 47
Quinolizidine systems
Lupin alkaliods. Part IV. The influence of some structural factors on the conformational equilibrium in bis-quinolizidine systems, 143

Sesquiterpenoids,
Structural and conformational studies on sesquiterpenoids. Part II: X-ray, molecular mechanics and NMR analysis of slovanolides, 311
Silicate surfaces,
A theoretical study of the harmonic vibrational frequencies of SiO_4H_3X (X = H, Li and Na): model structures for silicate surfaces, 163
SiO_4H_3X,
A theoretical study of the harmonic vibrational frequencies of SiO_4H_3X (X = H, Li and Na): model structures for silicate surfaces, 163
Slovanolides,
Structural and conformational studies on sesquiterpenoids. Part II: X-ray, molecu-

lar mechanics and NMR analysis of slovanolides, 311
Substituted aziridines,
Photoelectron spectra and electronic structure of substituted aziridines. Part 2. Photoelectron spectroscopic and quantum chemical studies of some donor/acceptor substituted aziridines, 93
2,4-Substituted-3-aza-1-thiabutadienes,
2,4-Substituted-3-aza-1-thiabutadienes: a conformational study of dipolmetry, 215
Sulfinylimine fluorocarbonylsulphane,
The gas-phase structure and conformational properties of N-sulphinylimine fluorocarbonylsulphane, FC(O)SNSO, 347
Symmetric hydrogen bond,
Nature of continuous absorption in IR spectra of charged complexes with a symmetric hydrogen bond, 237

Transition metal (II) tetracyanonickelate complexes,
Structural investigations of transition metal (II) tetracyanonickelate complexes of 3-chloropyridine using Fourier transform-infrared and laser Raman spectroscopy, 85
Tribenzo[*a,h,rst*]phenanthra[1,2,10-*cde*]pentaphene,
Conformations of condensed polycyclic aromatic hydrocarbons. Part III. The molecular and crystal structure of tribenzo[*a,h,rst*]phenanthra[1,2,10-*cde*]pentaphene: a simple analysis of the in-plane distortions due to overcrowding, 283
Triethylenediamine dioxide,
Hydrogen bonding. Part 40. IR and thermodynamic study of stability and stoichiometry for triethylenediamine dioxide hydrates, triethylenediamine monohydrate and mixed H_2O/H_2O_2 solvate of triethylenediamine dioxide, 59
Triethylenediamine dioxide hydrates,
Hydrogen bonding. Part 40. IR and thermodynamic study of stability and stoichiometry for triethylenediamine dioxide hydrates, triethylenediamine monohydrate and mixed H_2O/H_2O_2 solvate of triethylenediamine dioxide, 59
Triethylenediamine monohydrate,
Hydrogen bonding. Part 40. IR and thermodynamic study of stability and stoichiometry for triethylenediamine dioxide hydrates, triethylenediamine monohydrate and mixed H_2O/H_2O_2 solvate of triethylenediamine dioxide, 59
Trimethylphosphine,
Microwave spectrum, r_0 structure, and ab initio calculations for trimethyl-phosphine, 25
XY_5 trigonal bipyramidal molecules,
Calculation of internal valence force constants for XY_5 trigonal bipyramidal molecules, 397
